

National Assessment Collaboration (NAC) Physician Examiner recruitment requirements

1. Physicians must meet all the Common Physician Examiner and Physician Marker recruitment requirements for all Medical Council of Canada (MCC) exams.
2. Physicians must have the Licentiate of the MCC (LMCC) and must provide their LMCC registration number.

OR

Physicians who do not have their LMCC will be accepted as examiners under the following conditions:

- a. They assume a faculty position at a university (e.g., faculty lecturer, assistant professor, associate professor, or professor).

AND

- b. They hold certification by one of the following organizations and provide their certification number:
 - i. Royal College of Physicians and Surgeons of Canada (RCPSC)
 - ii. Collège des médecins du Québec (CMQ)
 - iii. College of Family Physicians of Canada (CFPC)

AND

- c. They sign a Release and Waiver document indicating that they have no intention of taking the NAC Examination, if requested at the discretion of the MCC.
3. Physicians must have recent experience supervising clerks or postgraduate year 1 (PGY1) residents or they must have experience as an examiner at this level of training.
 4. Physicians may be community physicians (i.e., they do not need to be faculty members if all other criteria are met).
 5. Physicians must be currently practising medicine in Canada; if they are a resident physician, they must be PGY3 residents or higher or have their Certificate of the College of Family Physicians of Canada (CCFP) at the time of the examination.
 6. If retired, physicians must be within three (3) years of practising in Canada.
 7. Physicians must not have been engaged in, nor will become engaged with, the creation, development, or delivery of for-profit preparatory courses or programs related to any of the MCC exams.

*Any exceptions require approval by the Assessment Department team.
Documentation of qualifications may be requested.*
